Long Camion Trains Always Moving Southward With Loads of Salvage-Flocks of Crows Replace Planes.

BUHIND THE LINES IN FRANCE RISHIND THE LINES IN FRANCE, Jan. 2. (Correspondence of the Asso-clated Press.)—This land of recent bat-tles is a queer land now. A fair proportion of them hear the

There are trains of captured enemy

driven and manufed by Frenchmen, and
these are handy outfits. Often the guns

But it is the treops on the way back

their behavior is the same. Always
they are laughing or singing, always
they are sugained to the French officers

Lights Spring to Life.

Lights Spring to Life.

Strangest of all are the lights at night in the hamlets and villages or siming friendilly from the Isolated farmbouse, in regions further back, For so long France scienced a deserted land to the traveler by night. Hour after hour the Associated Treess correspondent has traveled at night without a glitomer to be seen in the countryside, and now from every hill and vale the cheery windows aline and the villages are ablaze. The papers devote columns to the illumination of Faris, but it is here in the remote part of France, where war has been, that lights at night seem most wonderful, even if they are but candle or little lamp. Where once camions or staff cars formed lightless in the ronds to the imminent threat of collision, and often its accomplishment, the brilliant headinghts stab the night.

There is no village now but where the traveling stranger can obtain food, not in variety, perhaps, but epough and very hospitably. The degreeatory, polite and necessary refusal to requests for refreshments that usually were received in little hamlets or single farms has given way to a cheerful offering of what there is, for the farmers know Lights Spring to Life.

Is There a LEAK In Your Truck Costs?

Do you know now what your truck tires cost by the year?

Are you aware of the vital relation between tire selection and tire care, on the one side, and truck costs on the other side?

It will pay you, the owner of the business, or the chief executive, to concentrate on this truck tire-problem-it's far bigger than you have thought-and map out a course of action that will put you in touch with its details.

advantages of the various kinds of Goodyear Truck Tires-S-Y Solid Tires, Cushion Tires and Pneumatic Cord Tires.

And he will recommend the right tire for you-the one that will do your work most economically.
